

AQ - 30G

Seagull-Rain Gun

The AQ-30G (Seagull) is a highly energy-efficient 1" Rain Gun Sprinkler designed for optimal performance even at low water pressures as low as 1 kg/cm². It is ideal for overhead irrigation, making it suitable for larger crops such as sugarcane, oats, maize, fodder, and horticultural applications. With both full-circle and part-circle designs available, it provides excellent coverage and uniform water distribution, ensuring efficient irrigation even in challenging conditions.

HIGHLIGHTS

- **Energy-Efficient Design:** Operates effectively at low water pressure (1 kg/cm²)
- **Durable Construction:** Made with Aluminum pressure die-cast body and arm, brass components, and engineering-grade plastic parts for long-lasting performance.
- **Adjustable Spray:** Jet breaker screw allows users to modify the spray from heavy droplets to a fine mist.
- **Versatile Operation:** Available in both full-circle and part-circle designs to cater to different irrigation needs.
- **Wide Coverage:** Covers a radius of up to 20 meter

TECHNICAL DATA

- Operating Pressure Range 1.0 - 4.0 kg/cm² or 15 - 60Psi
- Recommended Pressure 3 kg/cm² or 43 PSI
- Recommended spacing 18m or 60ft for higher distribution uniformity.
- Trajectory Angle: 28°

Performance Table (AQ - 30G)
